## About

---

Full Stack Engineer with 4+ years of experience leveraging both web and mobile development. As an artist and software engineer, I am able to own end-to-end features while maintaining both functionality and aesthetics. I'm looking for environments that allow me to design and scale tools that improve daily life.

## Skills

---

**Languages:** TypeScript · Javascript · CSS · HTML · Elixir · Python

**Frameworks:** React · React Native · Vue.js · Phoenix · SwiftUI

**Tools:** Git/GitHub · Tailwind · REST & GraphQL APIs · Figma · Sentry · Test-Driven Development

## Experience

---

<b>Peek</b>	<b>Remote, NY</b>
Full Stack Engineer	May 2024 - May 2025
<ul style="list-style-type: none"><li>• Developed both B2C and B2B full-stack booking features, supporting over 25 million customers</li><li>• Delivered scalable UIs with A/B testing, improving booking flows and business visibility while increasing booking conversion</li><li>• Led end-to-end product design and frontend architecture for numerous features such as searching, filtering, and sorting activities</li><li>• Built and maintained a suite of tests, reducing production bugs</li><li>• Collaborated with cross-functional teams to prioritize roadmap features</li></ul>	

<b>Peek</b>	<b>Remote, NY</b>
Frontend Engineer	Dec 2022 - May 2024
<ul style="list-style-type: none"><li>• Built, tested, and maintained front end code</li><li>• Developed and optimized dynamic user interfaces, enhancing performance and user experience</li><li>• Led migration from traditional Phoenix views to LiveView, modernizing the stack while maintaining server-driven architecture</li></ul>	

<b>Changing Room</b>	<b>New York, NY, USA</b>
Front End Developer	Jul 2021 - Jan 2022
<ul style="list-style-type: none"><li>• Developed interactive frontend features</li><li>• Created a personality quiz and custom popups to increase user engagement</li><li>• Collaborated with backend and UX teams to build tools for environmental transparency</li></ul>	

<b>Self-Employed</b>	<b>Remote, NY</b>
Freelance Web Developer	Dec 2020 - Present
<ul style="list-style-type: none"><li>• Designed and built responsive websites for clients using HTML, CSS, and JavaScript</li></ul>	

## Projects

---

### Seascape

May 2025

seascapeapp.com | Mobile Developer

- Mobile app for journaling and meditation built with Supabase, TypeScript and React Native Expo
- Architected a Supabase-backed data model (Postgres + Row Level Security) with edge functions, triggers, and cron jobs that unify journaling and meditation streaks, friendships, and game events
- Secured auth flows with deep links and added rate-limiting logic to curb email spam
- Implemented offline game session syncing using AsyncStorage deltas and background workers, reconciling conflicts when connectivity resumes without data loss
- Owned everything from backend to frontend to UX to App Store submission

### Prelude

preludeapp.co | iOS Developer

- SwiftUI application to track personal music listening habits integrating Spotify's Web API
- Built a SwiftUI app that visualizes Spotify listening history and generates music recommendations
- Used Combine and declarative state management to build a responsive UI with real-time feedback

## Education

---

### Massachusetts College of Art and Design

Jan 2019

Bachelor of Fine Arts | Painting

### Actualize Coding Bootcamp

Mar 2021

Certificate | Full Stack Web Development
